### Service Specifications

#### I. Introduction

##### A. Overview

The Governor of the State of Hawaii designated the Department of the Attorney General, State of Hawaii (“Department”) to be the administrator for the S.T.O.P. (Services-Training-Officers-Prosecutors) Violence Against Women Formula Grant Program.

The 1994 Violence Against Women Act (VAWA) authorizes federal financial assistance to states to develop and strengthen effective law enforcement and prosecution strategies and victim services in cases involving violent crimes against women. S.T.O.P. grants lay the foundation for on-going efforts to restructure and strengthen the criminal justice response to reduce violence against women. The S.T.O.P. Program also calls for the development and enhancement of victim services in cases involving violent crimes against women.

S.T.O.P. grants and subgrants must meet one or more of the following eleven purpose areas:

- ❑ Training law enforcement officers and prosecutors to more effectively identify and respond to violent crimes against women, including the crimes of sexual assault and domestic violence.
- ❑ Developing, training, or expanding units of law enforcement officers and prosecutors specifically targeting violent crimes against women, including the crimes of sexual assault and domestic violence.
- ❑ Developing and implementing more effective police and prosecution policies, protocols, orders, and services specifically devoted to preventing, identifying, and responding to violent crimes of sexual assault and domestic violence.
- ❑ Developing, installing, or expanding data collection and communication systems, including computerized systems, linking police, prosecutors, and courts or for the purpose of identifying and tracking arrests, protection orders, violations of protection orders, prosecutions, and convictions for violent crimes against women, including the crimes of sexual assault and domestic violence.
- ❑ Developing, enlarging, or strengthening victim services programs, including sexual assault and domestic violence programs, developing or improving delivery of victim services to racial, cultural, ethnic, and language minorities, providing specialized domestic violence court advocates in courts where a significant number of protection orders are

granted, and increasing reporting and reducing attrition rates for cases involving violent crimes against women, including crimes of sexual assault and domestic violence.

- Developing, enlarging, or strengthening programs addressing stalking.
- Developing, enlarging, or strengthening programs addressing the needs and circumstances of Indian tribes in dealing with violent crimes against women, including crimes of sexual assault and domestic violence.
- Supporting formal and informal statewide, multidisciplinary efforts, to the extent not supported by state funds, to coordinate the response of state law enforcement agencies, prosecutors, courts, victim services agencies, and other state agencies and departments, to violent crimes against women, including the crimes of sexual assault, domestic violence, and dating violence.
- Training of sexual assault forensic medical personnel examiners in the collection and preservation of evidence, analysis, prevention, and providing expert testimony and treatment of trauma related to sexual assault.
- Developing, enlarging, or strengthening programs to assist law enforcement, prosecutors, courts, and others to address the needs and circumstances of older and disabled women who are victims of domestic violence or sexual assault, including recognizing, investigating, and prosecuting instances of such violence or assault and targeting outreach and support, counseling, and other victim services to such older and disabled individuals.
- Providing assistance to victims of domestic violence and sexual assault in immigration matters.

The S.T.O.P. Program requires and encourages collaboration among service providers, prosecutors, and police – those who encounter victims of domestic and sexual violence.

States must allocate 25% of the VAWA funds to law enforcement, 25% to prosecution, 30% to non-profit victim services, and 5% to the Judiciary. The remaining 15% may be allocated at the State's discretion within the parameters of the VAWA.

The funding for this RFP represents the allocation for non-profit victim services.

### **Purpose or Need**

To be eligible for S.T.O.P. grant funds, eligible states must develop and submit a *VAWA Implementation Plan* for approval to the Office of Justice Programs (OJP). States are required to develop their Implementation Plans through deliberative consultation and coordination with a broad range of participants, including private, nonprofit victim service programs (such as

sexual assault and domestic violence victim service programs) and victim advocates.

The Implementation Plan includes an overview of the process used to develop the plan, documentation from participating organizations regarding their involvement in the development and implementation of the plan; major shifts in direction, because of reevaluation or reassessment of previous efforts; a general explanation of how the VAWA funds will be distributed across law enforcement, prosecution, and victim services categories; and a description of how the success of grant-funded activities will be evaluated. The Implementation Plan identifies the funding priorities for the VAWA grant funds and the types of programs and projects the State intends to support with VAWA grant dollars.

The Department of the Attorney General convened the *VAWA State Planning Committee* to help develop the annual Implementation Plan. The committee consisted of thirteen members with representation from law enforcement, prosecution, domestic violence and sex assault service providers, immigrant services, Family Court, U.S. Attorney's Office, Hawaii State Commission on the Status of Women, and the Attorney General.

Developed in December 2001, the *FY 2001 Strategic Plan for the STOP Violence Against Women Formula Grant* provided a more redefined approach to the current efforts undertaken over the past five years. Initiated by a formal strategic planning session begun in May 2001, the VAWA State Planning Committee sought a long-range plan that would provide increased accountability and offer a "road map" for statewide action over the next three to five years for VAWA and other funding needs. This effort brought about the identification of issues and concerns across the different systems addressing domestic violence and sexual assault, as well as funding resources available to victims.

The current plan, *FY 2005 - 2007 Strategic Plan for the STOP Violence Against Women Formula Grant*, continues the allocations of previous years (25% - law enforcement, 25% - prosecution, 30% - non-profit victim services, 5% - Judiciary, 15% - discretionary).

**B. Planning activities conducted in preparation for this RFP**

The Department posted a *Request For Information* (RFI) notice on the state procurement website under Health and Human Services 103F on July 24, 2006, which included similar service specifications from a previous year as set forth in this RFP. To date, no comments or request for information have been sought from the Department.

**C. Description of the goals of the service**

The Department of the Attorney General, State of Hawaii, is soliciting proposals from qualified entities to develop, enhance and provide victim services to adult female victims of domestic violence or sexual assault.

**D. Description of the target population to be served**

Adult female victims of domestic violence or sexual assault.

**E. Geographic coverage of service**

Service areas for this RFP consist of the islands of Hawaii, Kauai, Lanai, Maui, Molokai and Oahu. The APPLICANT may apply in any one or more of these areas, or a specific geographic sector within an island. However, the APPLICANT shall demonstrate the actual capacity to provide the required services in the service areas for which it is applying.

**F. Probable funding amounts, source, and period of availability**

Total Funding: \$259,740

**III. Scope of Work**

The scope of work encompasses the following tasks and responsibilities:

**A. Service Activities (Minimum and/or mandatory tasks and responsibilities)**

The State requests proposals to develop, enhance and provide core services for adult female victims of domestic violence and sexual assault. Core services may include, but are not limited to the following:

- ☐ Advocacy
- ☐ Case Management
- ☐ Counseling
- ☐ Crisis Response
- ☐ Services to special populations including disabled, immigrant, and victims with substance abuse or mental health issues
- ☐ Legal Assistance (Note: S.T.O.P. funds may be used to provide civil justice assistance only in cases that bear directly and substantially on criminal justice matters. Because it is consistent with the overall intent of the VAWA statute, legal assistance to victims attempting to obtain civil protection orders may be supported. However, S.T.O.P. funds may not be used to support services for obtaining divorces. Divorces and legal separations are civil proceedings that fall outside the scope of the eleven broad purposes for which S.T.O.P. funds may be used.)
- ☐ Shelter
- ☐ Transitional services
- ☐ Training for law enforcement
- ☐ Training for prosecutors
- ☐ Training for other criminal justice providers, including the judiciary
- ☐ Multi-disciplinary training (e.g. substance abuse, mental health) for victim service and health care providers.

Children's services supported with S.T.O.P. funds must show an inextricable link to and be the direct result of providing services for a victim. For example, S.T.O.P. funds may support the expansion of shelter services for

battered women to include programs for their children. S.T.O.P. funds may not be used to support services that focus exclusively on children or to develop sexual assault or domestic violence curricula for schools.

**Problem Statement:** The APPLICANT must clearly define the problem the agency is proposing to address and the services the agency proposes to deliver. Include data that define the size and scope of the problem. Explain the impact of the problem on your agency, system, or community. Explain how this problem is either not addressed or is not adequately addressed in the current service delivery system. Include supporting hard data. The problem statement should identify the target population to be served, the number of individuals to be served and the geographic area(s) to be served.

**Approach to Project:** The APPLICANT shall provide an overview of their understanding of the tasks involved in accomplishing the objectives of the project. APPLICANTS are asked to submit an overview of their project plan and to identify what would make the APPLICANT uniquely qualified to perform this contract. APPLICANTS must describe, in detail, the services they are proposing to develop and deliver. APPLICANTS must include a description of any outreach materials, videos, training tools or manuals that may result from this project. APPLICANTS must clearly state the goals, objectives and activities of the project service delivery plan. Goals, objectives, and activities must be logically linked to each other and to output and performance measurements.

**Goal:** A goal is a broad statement about an undesirable condition that you would like to improve or a desired state of affairs toward which to strive. Project goals should be clearly stated and realistic. For example: to reduce the recidivism of substance-abusing parolees; to improve the prosecution of sex assault or domestic violence cases.

**Objective:** State the objectives, which are specific, measurable outcomes of the project. The objective should state who or what will change, in which direction (increase or decrease), by how much, and by when. It is imperative that objectives be both achievable and measurable. For example: 30% of parolees who enter a substance abuse treatment program will successfully complete the program during the project period; to reduce sex assault case processing from receipt of case to prosecutor's charging decision from 10 months to 3 months.

**Activities:** State the methods that will be utilized to achieve the objectives. Include activities, staffing (number and type), equipment (description and justification), clients to be served, client selection

criteria, etc. Program activities must be developed within the confines of the project's resources.

**B. Management Requirements (Minimum and/or mandatory requirements)**

**1. Personnel**

The APPLICANT shall include resumes of all key personnel assigned to the contract and an organization chart. Resumes must show employment history, all relevant and related experience and education and degrees (including specific date, names of employees, and educational institutions). If the staff position is not yet filled, provide a position description.

**2. Administrative**

The APPLICANT shall establish and implement policies and procedures that clearly identify the target population for each type of victim service, the program content, and methods of service delivery.

**3. Quality assurance and evaluation specifications**

The APPLICANT must ensure quality assurance and ongoing evaluation of the project goals, objectives and activities.

The Department shall monitor the project during the project period to evaluate the results of the program. During these monitoring visits the APPLICANT must make available to the Department for review: project files, fiscal records, documentation for cost category expenditures, time sheets, data collection results, etc.

**4. Output and performance/outcome measurements**

The APPLICANT must clearly describe outcome measures, benchmarks and data collection methods relative to the proposed scope of services. The program objectives and outcome indicators should be appropriate and achievable with regard to the target client group, the stated problem and proposed service activities.

The APPLICANT must provide baseline data from which measurable outcomes can be established. Outcome measures may be quantitative or qualitative. A *quantitative* indicator can be expressed as a single measure (number of victims served), or as a degree of change (increase/decrease in number of domestic violence cases). *Qualitative* indicators can be used where quantitative measures are not feasible. It is not possible, for example, to assign a direct quantitative measure to the extent to which neighborhoods have been made safer through crime watch programs.

However, a qualitative (or indirect) measure can be used through the use of anecdotal information, surveys, direct observation, etc.

The APPLICANT must develop measurements that will be used to determine the effectiveness of the project and whether the objectives have been met. Include the type of data to be collected and any analysis of the data that might occur (for example, if training is going to be an activity, how will you determine if the training made any difference?). Output and performance measurements must have a logical link to goals, objectives, and activities. The performance measurement information shall be used to evaluate the effectiveness of the program.

## **5. Experience**

The APPLICANT shall demonstrate that it has the necessary skills, abilities, knowledge of, and experience relating to the delivery of the proposed services. The APPLICANT shall also provide a listing of verifiable experience with projects or contracts for the most recent five years that are pertinent to the proposed services.
